

CERAMIC NOZZLE 952-CER

The ceramic nozzle type 952-cer was designed for the hand lance use. The mvt ceramic nozzles have a efficiency factor of 0.95. The advantages come to the fore especially in concrete removal, such as exposing rebars, or in depth removal. A big advantage is that the ceramic insert can not burst and also the lifetime is much more higher than sapphire. Due to its advantageous shape, this nozzle can easily be mounted on all conventional hand lances with an outer cone.

The ceramic insert has a uniform and high quality. All inserts are checked for scratches, cracks and flow.

CHARACTERISTICS	TYPE
Operating pressure (bar)	max. 3000
Operating temp. (°C)	max. 150°

PROPERTIES AND ADVANTAGES

- LONG LIFETIME
- CONSTANT JET QUALITY
- HIGH-POWER AND FOCUSED WATER JET
- NEEDLE JET WITH HIGH ENERGY DENSITY
- EASY TO INSTALL AND DISASSEMBLE
- SWISS QUALITY

APPLICATIONS

- CONSTRUCTION INDUSTRY
- MINING
- CONCRETE DEMOLITION
- SURFACE TREATMENT
