VERSATILE MODULAR PIPE CLEANING TOOL

The rotation speed of this modular pipe cleaning tool can easily be adjusted "manually" for the required cleaning job. Slow speeds for plugged pipes with hard residues, and fast speeds for polishing the inner walls of the pipes.

Cleaning Heads

To suit the requirements of every cleaning job the SLC has a variety of head choices available to which you can connect a pulling ring, customized ports and have multiple jetting options. The SLC heads are based on pressure, flow and type of cleaning work.

Extension Lances

Certain head options require extension nipples. See our extension lances for the possibilities.

FEATURES

- Up to 1500 bar
- Manual speed adjustment
- Choose the right SLC head for the job
- Optional pulling ring
- Optional extension lances
- Rugged stainless steel construction

Accessories

The DERC Salotech centralizers allow the SLC to work seamlessly with our high pressure extension arms, placing the effective water jets closer to the wall of the pipe. In addition the jetting configurations can easily be optimized with our high quality DERC Salotech inserts, to provide either more pulling power or more unplugging power.
